Offset lithograph - A reproduction of the original printed on acid-free paper with archival inks. Offset lithographs may be personalized up to four faces and the personalization is barely detectable when framed under glass. Remember, when having a personalized print framed, it is imperative that you notify your framer that the print has original art applied and care must be taken. The print must NOT touch the glass and should be matted to allow air space in between the glass and the print. We are not responsible for out-sourced framing.

Canvas Giclée - A reproduction of the original printed on acid-free canvas with archival inks. Canvas giclées are gallery wrapped, require no framing and are ready to hang. Personalization of a giclée print is undetectable.

Limited Edition - When personalizing a print, it immediately becomes an embellished reproduction and being that it is different than any other, it becomes one of a kind, numbered one of one. There will never be another one like it.

Copyright - Artist retains all rights to your personalized print. Copies/reproductions are available only through the artist to insure that the integrity of the artwork is retained and maintained.

CARICATURE AGREEMENT & PAYMENT METHOD

A caricature is a likeness of an individual and should not be confused with fine portraiture. The photo that I provide to the artist will reflect the same pose, hairstyle, facial expression and coloring in the finished work. Location of the caricature is determined by the artist. Revisions are available and subject to a charge of twenty-five dollars per hour. d. hummel-marconi is not responsible for out-source framing of print by purchaser or by final recipient.
